EXAMINER'S AMENDMENT

1. The examiner must cancel withdrawn claims prior to allowance. The examiner requires the applicant's authorization if and only if the applicant has contested (i.e. with traverse) the examiner's restriction. Had the applicant responded without traverse the examiner would have the authority to cancel the claims without authorization from the applicant. As the applicant's response was with traverse (see papers from 7/1/2005), permission was required to cancel the withdrawn claims.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Neil Jetter on 7/17/06.

The application has been amended as follows:

Please delete claims 12-20.

3. The following is an examiner's statement of reasons for allowance:

4. The applicant's amendments have overcome previous prior art rejections. The applicant's timely filing of the terminal disclaimer has overcome previous ODP rejections.

5. The applicant's claims now more specifically recite the contents of the slurry. The slurry solution now requires the inclusion of the halide ion, the diatomic halogen molecule and the newly required inclusion of the abrasive particle. Although the use of halide ions in combination with the abrasive is known, the addition of the specific diatomic halogen molecules was not found in the prior art. Nor would it have been obvious to one of ordinary skill in the art of polishing composition to have used these specific molecules in combination with the halide and the abrasive for chemical mechanical polishing. As such these claims are found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglass McGinty can be reached on (571)272-1029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
